

2015 Washington State Energy Code - Commercial Provisions Trainings

The Northwest Energy Efficiency Council is pleased to announce our 2017 training series for the 2015 WSEC commercial provisions. Primary topics will include provisions related to mechanical and service water heating systems. Note that the new dedicated outside air system provision goes into effect as a prescriptive requirement for specific building areas on July 1st, 2017.

TRAINING TOPICS INCLUDE:

- ✓ Dedicated Outside Air Systems (DOAS)
- ✓ Variable Air Volume (VAV) Systems
- ✓ Economizer Requirements & Exceptions
- ✓ Efficient Fan Systems
- ✓ Objectives of Mechanical Controls
- ✓ Refrigerated Spaces and Systems
- ✓ Service Water Heating & Distribution Systems
- ✓ Commissioning
- ✓ Additional Efficiency Package Options

PRESENTERS

LISA ROSENOW

Senior Program Manager – Northwest Energy Efficiency Council
Lisa develops educational programs and technical resources for the commercial provisions of the WSEC. She is an instructor and technical advisor, supporting energy code compliance through advocacy and industry education.

TRAINING SCHEDULE
