

2015 Washington State Energy Code - Commercial Provisions Trainings

The Northwest Energy Efficiency Council is pleased to announce our training series for the 2015 Washington State Energy Code (WSEC), which goes into effect on July 1st, 2016. Experts from the industry will cover key changes between the 2012 and 2015 WSEC for new construction and retrofits. Presentations will include various examples of how common provisions apply to a sample project, compliance options for envelope, mechanical and lighting systems, and how to document compliance.

TRAINING TOPICS INCLUDE:

- Structure of the 2015 WSEC
- Documentation requirements
- Building thermal envelope assembly performance
- Air barrier requirements and testing
- Vestibules and air curtains
- Refrigerated spaces
- Daylight zones
- Lighting system controls and lighting power allowance
- Controlled receptacles
- Mechanical equipment and system efficiency and controls
- Dedicated outside air and high performance VAV systems
- Service water heating system efficiency and controls
- Energy source & end-use metering, data acquisition and display
- Commissioning performance testing and reporting
- Additional efficiency package options
- Existing building and system retrofits and additions

PRESENTERS

LISA ROSENOW, Senior Program Manager – NEEC

Lisa develops educational programs and technical resources for the commercial provisions of the WSEC. She is an instructor and technical advisor, supporting energy code compliance through advocacy and industry education.

DUANE LEWELLEN, President – Lewellen Associates, LLC.

Duane is an instructor and advisor on the topics of energy management, building O&M and Energy Code compliance. He is an ICC Certified Energy Code and Mechanical Code Plans Examiner. Duane has provided education and technical support for the WSEC since 1994.

TRAINING SCHEDULE

Trainings are **FREE** thanks to the generous support of our regional and local sponsors. All trainings are from 8:30am to 4:30pm with a one-hour off-site break for lunch. The morning session will cover envelope, lighting and energy metering related topics. The afternoon session will cover mechanical, service water heating and commissioning. Attendees are welcome to attend one or both sessions. Pre-registration is required. To register, click on the training that you wish to register for via our online service.

SEATTLE TRAINING

DATE: Wednesday, April 20th, 2016

LOCATION: UW Center for Urban Horticulture – NHS Hall

ADDRESS: 3501 NE 41st Street • Seattle, WA 98105

TIME: 8:30am-4:30pm

REGISTRATION: <https://neecwsec.webconnex.com/SeattleApril2016>

VANCOUVER TRAINING

DATE: Thursday, April 21st, 2016

LOCATION: Luke Jensen Sports Park – Bud Van Cleeve Community Room, 2nd Floor

ADDRESS: 4000 NE 78th Street • Vancouver, WA 98665

TIME: 8:30am-4:30pm

REGISTRATION: <https://neecwsec.webconnex.com/VancouverApril2016>

SPOKANE TRAINING

DATE: Tuesday, May 24th, 2016

LOCATION: CenterPlace Regional Events Center – Great Room

ADDRESS: 2426 N Discovery Place • Spokane Valley, WA 99216
