

2015 Washington State Energy Code - Commercial Provisions Trainings

The Northwest Energy Efficiency Council is offering a training in November 2017 about the commercial provisions of the 2015 WSEC. This 6-hour training will provide a summary of information across all disciplines in this Code. Note that the new dedicated outside air system provision went into effect as a prescriptive requirement for specific building area types on July 1st, 2017.

TRAINING TOPICS INCLUDE:

- ✓ Building envelope provisions & compliance documentation
- ✓ Air barrier testing
- ✓ Refrigerated spaces & systems
- ✓ Lighting system controls & lighting power allowances
- ✓ Controlled receptacles
- ✓ Fan and air distribution system efficiency
- ✓ Dedicated outside air systems (DOAS)
- ✓ Variable air volume (VAV) systems
- ✓ Economizer requirements & exceptions
- ✓ Service water heating (SWH) & distribution systems
- ✓ Commissioning (Cx)
- ✓ Additional efficiency package options
- ✓ Requirements for retrofits

TRAINING SCHEDULE

This training is **FREE** thanks to the generous support of our regional and local sponsors. Pre-registration is required. To register, click on the registration link provided.
